

The word "MINECRAFT" is rendered in its iconic 3D, blocky font. The letters are a light tan color with dark grey outlines and shadows, giving them a three-dimensional appearance. The background is a solid light green, decorated with several pixelated, green, leaf-like shapes scattered around the title.

GUIDE

Heyooo

This is a little guide to show you
how you can make your own
Minecraft Lily of the Valley at home :3

I am trying my best to make the steps
as easy and understandable as
possible but if you still struggle or
have some questions, feel free to
text me on instagram in dms (@linebck)
I try to check them pretty often and
will try to help you as good as I can :)

I wish you the most fun while making
your own Lily of the Valley <3

You need:

Wooden Cubes, 20mm/ 2cm
(I get mine from Amazon)
You can also get Wooden
Cubes in the size 10mm/ 1cm
if you want a smaller flower.

I made ref links from the material that I
used so if you want to support me you
can use these <3
