

The word "MINECRAFT" is rendered in its iconic 3D, blocky font. The letters are grey with black outlines and shadows, giving them a three-dimensional appearance. The background is a solid orange color, and several pixelated flowers are scattered around the title.

MINECRAFT

The word "GUIDE" is written in a bold, white, pixelated font with thick black outlines. It is centered on the orange background, with pixelated flowers visible in the corners.

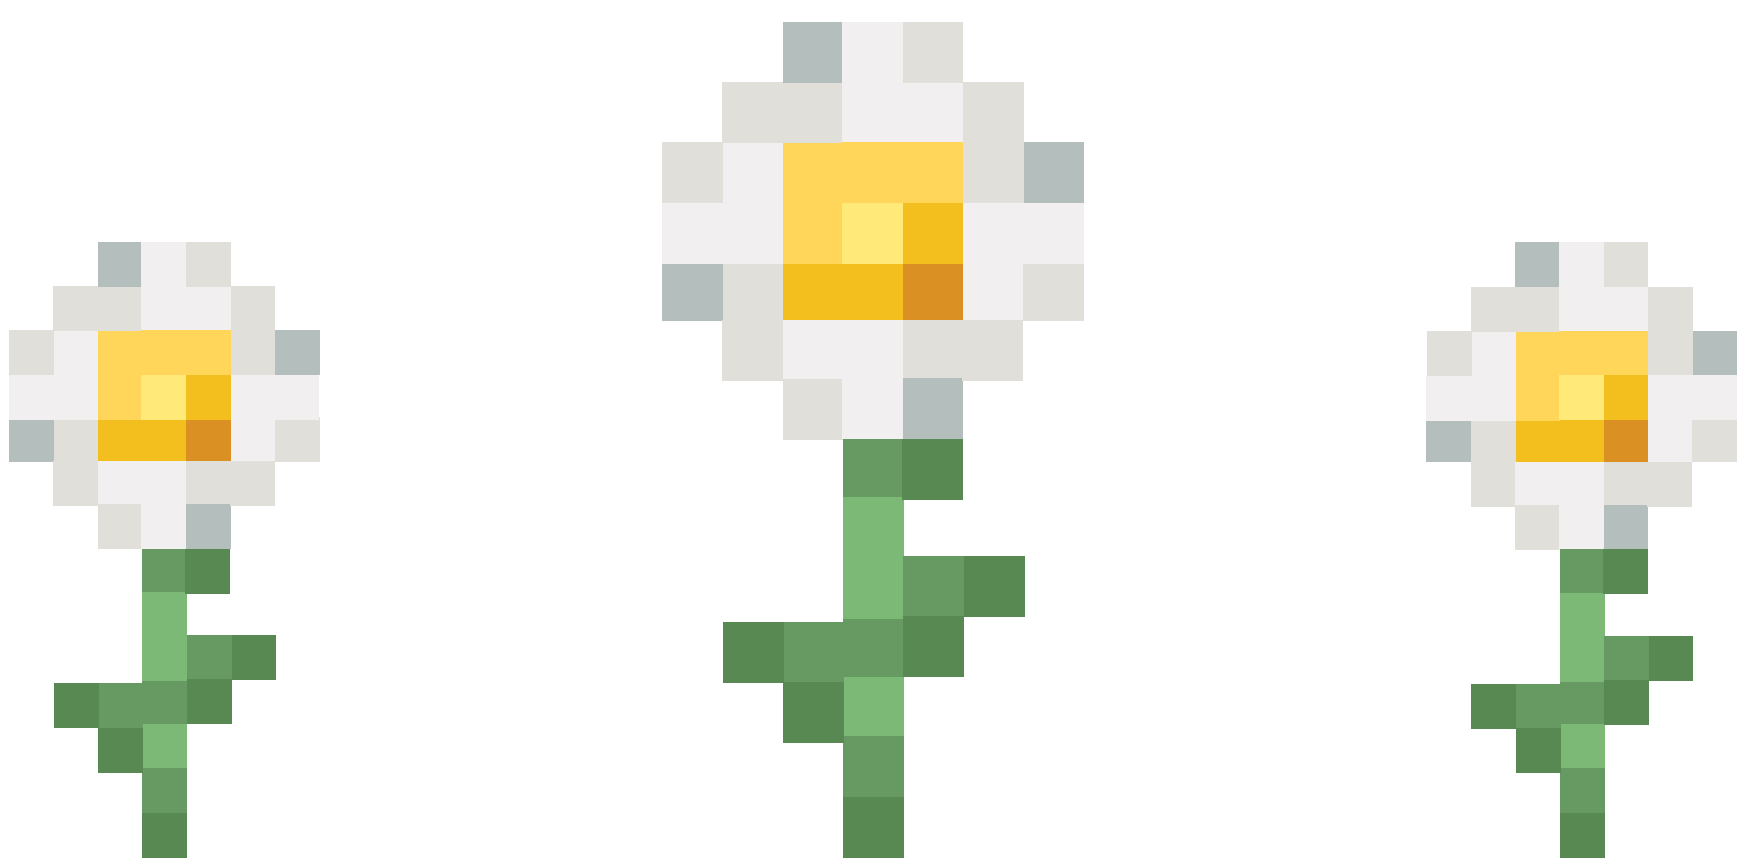

GUIDE

Heyooo

This is a little guide to show you
how you can make your own
Minecraft Daisy at home :3

I am trying my best to make the steps
as easy and understandable as
possible but if you still struggle or
have some questions, feel free to
text me on instagram in dms (@linebck)
I try to check them pretty often and
will try to help you as good as I can :)

I wish you the most fun while making
your own Daisy <3

You can also get Wooden

used so if you want to [support me](#) you
